### ABOUT ME

As a 4th-year Software Engineering student, I am actively striving to apply theoretical knowledge in practice. In addition to working with powerful frameworks like Laravel, I am also actively engaged in frontend development, using modern tools like Tailwind CSS to create projects.

My participation in education, seminars, and events allows me to enhance my knowledge base and gain experience in real projects. By establishing a balance between theoretical knowledge and practical application, I aim to contribute to my personal development while also providing value to those around me.

### EXPERIENCES

MFE Technology Inc. · Long-term Intern

Oct 2024 - Jul 2024

I have worked in the fields of Laravel and PHP, contributing to real projects. I have helped successfully complete projects through teamwork. This experience has allowed me to grow and gain the opportunity to approach new projects from a broader perspective.

- PHP · Laravel · Tailwind CSS · MVC · Web Testing

İZUZEM · Intern

Jul 2023 - Sep 2023

I completed a volunteer internship that provided me with the opportunity to gain experience in various fields and significantly contributed to my personal development. I am very happy to have had the chance to get closer to my future goals through this experience.

- Linux System Administration · Docker · Minikube · DevOps

### VOLUNTARY WORK

Istanbul Sabahattin Zaim University Information Technology Club

Chairman of the Board

Jun 2022 - Oct 2023

During this process, I had the opportunity to develop myself in various fields. As in any job, communication was one of the most important elements in our club activities. Especially the communication with team members was the cornerstone of our success. Throughout our club activities, we came together with many different people, gained new teammates, and successfully executed Teknofest projects that appealed to various audiences.
